

Selection guide for Keencut cutting tools

Horizontal cutting for soft and rigid materials – PVC, foam centered board, extruded pvc, carton, banner, paper, film and textile

SmartFold

- Precision 0.2mm
- Available in width of 110, 160, 210, 260, 310 & 360 cm
- Interchangeable tools
- Sightline Stripe
- Integrated Lift & Hover elevation system
- Fold-away under bench/storage
- Selection of cutting axle
- High volume for soft, semi-rigid or fragile materials
- Integrates a hard cutting strip for use with rotary cutter

Bench optional

- For one SmartFold cutter according to the length
- Strong aluminium base for increase stability and accuracy.

BenchTop

- Precision 0.2mm
- Available in width of 110, 160, 210, 260, 310 & 360 cm
- Interchangeable tools
- Sightline Stripe
- Integrated Lift & Hover elevation system
- Mid volume for soft, semi-rigid or fragile materials
- Cutting mat required for use with rotary blade

Bench optional

- For one BenchTop cutter according to the length
- Strong aluminium base for increase stability and accuracy.

FreeHand

- Precision 0.2mm
- Available in width of 110, 160, 210, 260 & 310 cm
- Interchangeable tools
- Sightline Stripe
- Portable and high precision
- Cutting mat required for use with rotary blade

Sabre S2

- Precision 1mm
- Available in width of 100, 150, 200, 250 & 300cm
- Practical and mobile solution. The optional stand integrates a scrolling bar for media rolls and a waste catcher.
- Universal cutter for soft, semi rigid and thin materials
- Cutting mat required

Optional Stand

- Waste catcher and roll scrolling bar included

Simplex

- Precision 1mm
- Available in width of 100, 150, 200, 250 & 300cm
- Very light and easy to use for most commonly used materials
- Cost saving
- Cutting mat required

Technic ARC/TE

- Innovative cutter with twin wheels
- Available with or without aluminium base
- Bi-directional cutting
- ARC TE can be installed permanently on an existing table or bench.

Vertical cutting for rigid materials– PVC, foam centered board, extruded PVC, carton, aluminium composite

SteelTrak

- Precision 1mm
- Available in 165, 210, 250cm
- High Volume processing of rigid and semi rigid materials
- Scoring of composite materials for folding
- Can be fixed to the wall or installed on a free standing kit
- Cut the hardest materials
