

## SABRE S2

1mm-  
accuracy-on-  
the-whole  
length

### Perfect for cutting:

#### Semi-rigid materials

- Corrugated cardboard, PVC foam board, corrugated plastic, foam-centred board up to 13mm
- Mountboard and conservation board up to 3.5mm
- Magnetic sheet up to 1mm

#### Flexible materials

- Banners, card, paper
- Film and self-adhesive vinyls
- Flexo graphic plates (vertical cut)
- Textiles

#### Rigid materials (scoring)

- Cast acrylic or Plexiglas up to 3mm

### HIGHLY ACCURATE, ROBUST, PORTABLE CUTTER WITH INTEGRAL BASE

- Available in 5 sizes from 100cm to 300cm
- Versatile cutter for a wide range of materials
- Sits directly on a bench or mounted to the optional stand
- Securely clamps even the most delicate materials
- Safety by design
- Reduces cutting time, simple and instinctive operation
- Guaranteed for 5 years
- Calibrated for immediate 'out of the box' accuracy, keeps wastage to a minimum

## CUTTING HEAD

### Versatile, simple to use

Single tool cutting head allows single-handed cutting action. A choice of three blade holders provide maximum versatility and cutting options.

### Reduced cutting time

Interchangeable blade holders enable the operator to switch quickly between tools to suit different materials.

## SAFETY

### Secure and accurate

Full length silicon grip strips in the base and underside of the cutter bar hold even the most delicate materials firmly in place. Self-adjusting/floating hinges automatically adjust to give lay-flat cutting on all materials up to 13mm thick.

### Safety by design

All blade holders come with automatic blade retraction and/or guards for safety.

## BLADE HOLDERS (INCLUDED WITH THE MACHINE)

### 1. Graphik blade holder

Purpose-designed for tougher material like PVC foam-board where extra blade stability is required.

- The Graphik blades are manufactured from high-grade steel and have a special tip design for increased durability & reduced tip breakage.
- Orientates for left-right or right-left cutting.
- Sliding blade depth adjuster allows for quick and easy blade extension up to 13mm.

### 2. Medium duty blade holder

For use with standard off-the-shelf utility blades for lighter-duty applications. Adjusts to a maximum blade depth of 10mm.

### 3. Circular blade holder

To cold cut delicate textiles and other fabrics without snagging. Ideal for trimming banners and posters where a knife would be too aggressive. Use with cutting mat (not supplied).

## OPTIONS

### Stand

An anodised aluminium 90cm/36" high stand fitted with locking castors to enable quick positioning where required. The stand pack option includes a 90cm/36" high stand, waste catcher and material roll holder to hold rolls up to 122cm/48" long.

### Extended measuring arm

Add a 91cm/36" measuring arm to improve accuracy and versatility. Comes complete with measuring stop.
